

Client: **Chemical Industries Association**
 Project: **Annual Dinner Programme**

Exclusivity and inclusiveness, relaxation and stimulating ideas, shop talk and time to reflect - drawing all the elements together is the whole aim of the CIA's annual dinner, and the central design theme for 2003's informative and inviting programme.

The CIA Annual Dinner is one of the largest annual events of its kind and is the chemical industry's premier business and social evening of opinion leaders. There will be some 5000 diners including senior representatives of chemical companies and leading figures from the City, industry and commerce, government, academia, education and the charity sector. The dinner provides a unique opportunity to establish robust working relations, enhance partnerships and generate new business.

CIA ANNUAL DINNER 2004

Yes, thank you, I will attend
 No, I regret I am unable to attend
